PERSONAL PROFILE

A soon-to-be graduate from SMK Raden Umar Said, Kudus, Central Java, with a focus on Web Design and Web Development. Experienced in software development at PT. Humanika Mitra Solusi as Frontend Engineer, proficient in various programming languages and frameworks, particularly Javascript, Typescript, React, and Next.js. Skilled in web development, web animation, website creation, and consistent in creating friendly and responsive designs.

EDUCATION

SMK RADEN UMAR SAID

Software & Game Development

July 2022 – 2025 July

- Learned problem-solving techniques to address technical challenges effectively.
- Participated in collaborative projects, working in teams to achieve project success.
- Studied programming languages: Java, HTML, CSS, JS, Flutter, Dart, and Visual Studio Code.
- Developed software development skills using frameworks like React, Laravel.

WORK EXPERIENCE

PT. Minilemon Nusantara - Internship

Frontend Engineer Animation

January 2025 - Present

- Implemented responsive animations to ensure optimal viewing experience across different devices.
- Collaborated with the design team to create visually appealing and engaging user interfaces.
- Developed interactive animations for various company projects using GSAP and Framer Motion.

PT. Humanika Mitra Solusi - Internship

Software Development

October 2024 - Present

- Create and analyse an effective system for website development.
- Design websites interfaces using Figma to enhance user experience.
- Apply the design that has been made in Figma using the Next.js and React.js frameworks.

PROJECT EXPERIENCE

POSYANDU PARTNERSHIP - SiKita (Internship)

Frontend Engineer (Client & Admin Side)

October 2024 – Present

- Designed intuitive and responsive landing and admin dashboard interfaces using Figma, creating over 10 pages.
- Developed user interfaces using Next.js & React, supporting active app engagement.
- Recreate design results to ensure user satisfaction and website stability.

UMKM PARTNERSHIP – Rental Motor Kudus (School Final Project)

Frontend Engineer (Client & Admin Side)

March 2024 – August 2024

- Design the interface for the “Rental Motor Kudus” App using Figma, creating over 15 pages. Ensure that the features created benefit clients and admin (owner).
- Develop a Next.js-based application, completing over 15 main features, including payment gateway and booking system.
- Ensure website performance, consistent design, use of repetitive components and prevent issues that confuse users.

PERSONAL PROJECT

SiKita – Digital Posyandu Platform

Frontend Engineer (Admin Side)

October 2024 – Present

- Developing a user-friendly admin dashboard for a digital posyandu platform using Next.js 15, React, Tailwind CSS, and Framer Motion.
- Responsible for creating a seamless and efficient user interface for administrators to manage data, track progress, and generate reports.

Creation – Personal Portofolio

Frontend Engineer

January 2025 – January 2025

- Developed a visually engaging portfolio showcasing the power of web animation.

- Utilized Next.js 15, React, Tailwind CSS, Framer Motion, and GSAP for dynamic and interactive elements.

HealthCare – Appointment Management

Fullstack Engineer

September 2024 – September 2024

- Develop a Next.js-based application, create databases using Appwrite and connect them to the client side.
- Ensure website performance, consistent design, use of repetitive components and prevent issues that confuse users.

Rental Motor Kudus – Motorcycle Rental Platform

Frontend Engineer (Client and Admin Side)

April 2024 – September 2024

- Developed both user and admin interfaces for a motorcycle rental platform.
- Implemented key features including booking forms, user history, and payment gateway integration.
- Utilized Next.js 13, React, Tailwind CSS, and Framer Motion for a seamless user experience.

JelajahKALBAR – Kalimantan Barat Tourism Website

Frontend Engineer

September 2023 – November 2023

- Developed a website showcasing the socio-cultural and culinary information of Kalimantan Barat, Indonesia.
- Implemented HTML, CSS, and JavaScript to create a user-friendly and informative website for tourists and locals alike.

CERTIFICATES AND TRAINING

- **Building Performance Web Applications - Dicoding** | July 2024 – July 2027
Learn how to effectively improve website performance.
- **Learn Basic Javascript for Beginners – Dicoding – 98XWLO3G0ZM3** | Jun 2024 - Jun 2027
Enhanced skills in DOM manipulation, functions, and core JavaScript concepts.
- **Effective Communication – Dicoding** | Jun 2024 - Jun 2027
Learn about the importance of effective communication.
- **Learn to Create a Web Frontend for Beginners – Dicoding – N9ZOO2K1DZG5** | Feb 2024 - Feb 2027
Mastered web interface design techniques using HTML, CSS, and JavaScript.
- **Learn Basic Web Programming – Dicoding – EYX40G2EJPDJ** | Jan 2024 - Jan 2027
Acquired fundamental knowledge of HTML, CSS, and JavaScript for web page creation.
- **Cloud Practitioner Essentials (AWS Cloud) – Coding – NVP7O56GRPR0** | May 2023 - May 2026
Gained expertise in cloud services, AWS infrastructure, and management basics.

SKILLS

- **Technical Skills:** UI/UX Design, Web Development, Frontend Development, API Integration, React Development, Git Version Control, Testing & Debugging.
- **Tools Proficiency:** Microsoft Office, Git, API Integration, RESTful API, Postman, Visual Studio Code, Xampp, Figma, Excel
- **Personal Skills:** Disciplined, Responsible, Problem-Solving, Effective Communication and Teamwork, Attention to Detail
